

Tibbee Creek Watershed

8 Digit HUC - 03160104

The Tibbee Creek 8-Digit Hydrologic Unit Code (HUC) watershed is 714,195 acres in Northeast Mississippi. Eighty-five percent of the Tibbee watershed is in Chickasaw, Clay and Oktibbeha counties. There are 1,331 farms in the watershed. Average farm size is 206 acres. Eighty-six percent of the watershed is in private ownership. The land is 58 percent forest, 29 percent grass seed pasture and hay land, and the remaining acres are mostly in grain crops, nurseries, vineyards, or row crops. Conservation assistance is provided by seven NRCS service centers, two Resource Conservation and Development (RC&D) offices, one soil survey office, and seven Soil and Water Conservation Districts.
